

WHERE TO STAY IN CHAMPAGNE

Château de Sacy

If you're not scared of ghost stories and haunted castles, book one of the 12 rooms at Château de Sacy. I stayed inside the decadent 'Le Roi Soleil' suite making it out alive and pretty well-rested the next day. In pure royal fashion, I slept under a round, gold plated canopy surrounded by white linen curtains. A 360 degree view over vines sets apart this recently renovated 19th-century designer-Château from other hotels. Located between Reims and Epernay, it's also the ideal location to stay and explore the Champagne region.
